2 PCE in stock

The Dark Kamo Compac cooler bag collection is designed to keep bait and food as fresh as possible, with a model to suit all your needs. Whether you're planning a day trip, a quick overnight stay or several days fishing with a lot of bait and food, there's a cooler bag size perfectly tailored to your requirements. They are also stylish and designed specifically for the

Product information

fishing trip.

The outside is made from the same tough and water-repellent Dark Kamo material used throughout the Dark Kamo range. They therefore fit in perfectly with the rest of your fishing gear and have a reinforced, waterproof bottom. The inner walls are fully insulated to keep the contents cool or frozen for as long as possible. It helps if you choose a cooler bag size that leaves as little empty space as possible inside to keep the contents cold for longer. The included Compac cooling packs help with this (two cooling packs are included with each medium or large cooler bag, with internal straps for secure attachment).

The large model also has three external pockets. The Compac cool packs are designed to be frozen 24 hours before your fishing trip and then keep the contents of your cool bag or Compac cooler cold for as long as possible.
