7 PCE in stock

Essential when using a traditional buzzer bar set-up. Made from a solid piece of anodized aluminum and fitted with a continuous thumbscrew, the stabilizer is not only durable but also looks good. Attach the stabilizer before you place your banksticks and lock it in place once it is correctly positioned. Primarily designed for the 20/20 series, but it is also compatible with other 16mm sticks from Trakker.

Features:

- Dimensions: 7.7cm
- Weight: 71g
- Material: Aluminum
