The double-jointed fiberglass indicator arms are the perfect replacement for your chains or cords. Designed to minimize indicator swing and false readings in high winds. With dual stainless steel hinges, they offer the same sensitivity as chains and cords without sacrificing quality. Their lightweight yet durable fiberglass construction allows you to use them with confidence on the lightest, most sensitive indicator setups as well as heavy distance and river setups.

Features:

- double-jointed fiberglass indicator arms as a replacement for chains or cords
- designed to prevent indicator swinging and false readings in high winds
- lightweight yet robust fiberglass shaft

Technical features:

- Dimensions: approx. 7.6cm (length)
- Weight: 10g
- Material: Stainless steel & fiberglass
