Delivery **Wed 11. Nov - Thu 12. Nov 2026**

8 Stk. in stock

Mark your fishing spots quickly and easily: Simply attach your chosen anchor weight, drop the RotaBlock Marker Float into the water from the side of a boat and the self-balancing RotaBlock system will automatically find the correct depth. Once the RotaBlock has settled, simply unroll another two feet of line to account for wind and wave action, lock the body in place

Product information

with the push pin and leave the marker permanently in place until it's time to collect it. Compatible with lighted MarkaLite handles (Maxi only, sold separately).
