Product information

These boilie imitations are the ultimate solution if your hookbaits are attracting unwanted attention not only from carp but also from other species, especially crayfish.
Designed to complement the Mainline Freezer Boilies and Readymades, these precision crafted hookbaits give you a strategic advantage in difficult fishing conditions.

The hookbaits feature a recessed cavity that ensures a Korda Hair Stop sits flush inside the boilie.
This not only improves the presentation, but also optimizes the effectiveness of the bait, as it makes it much more difficult for unwanted bait thieves to steal the bait.

With their delicate washed-out coloration, these hookbaits are not only visually appealing, the addition of liquid additives also makes them extremely attractive to carp in terms of taste.

Thanks to their slow sink rate, they can be fished as wafters over a feeding spot and with their unique flavor, they are the perfect match-the-hatch baits, whether you want to set the baits out over a longer period of time or need an extremely resistant hookbait.

Available in 15mm (9 per pack) and 18mm (6 per pack).
