6 PCE in stock

Product information

Diameter:	11 to 14 mm
Flavor:	fishy
Design/type:	Wafter

These are easy floating, durable wafters.

Features of the wafters:

- Easy to float, easy to trim to "rig balance"
- Soft natural GLM-like taste and aroma
- Rich in amino acids from high quality proteins
- Highly soluble attractors promote maximum release
- Color-coordinated with the boilies
- Contains the same base mix and liquids as the boilies

Contents:

- 10x14 mm Dumbell Wafter = 65 baits

This product should be stored in a cool, dry place out of direct sunlight.

Soaking and coating these pop-ups in liquids will reduce their buoyancy.

We manufacture our wafters to be slightly buoyant rather than critically balanced. This allows the angler to adjust their buoyancy by trimming them slightly downwards to create a perfectly balanced rig.
