The Purista CGC is a top rod designed for carp anglers who value power and precision. This rod redefines the standards with its revolutionary design and materials. The fast action of the blank makes it possible to cast lures effortlessly and with great power over long distances. The special laying of the carbon fibers at a 45-degree angle gives the blank exceptional tensile strength. Equipped with extra light and stable carbon guides, the rod not only contributes to overall lightness, but also improves the resonance behavior of the blank. The slim Full Duplong handle ensures perfect handling when casting and offers a firm and comfortable grip during the fight.

Features:

- Objective: Speed, dynamics and long casting distances
