More than 10 Stk. in stock

Flavor:	spicy
Design/type:	Pop-ups

Product information

The Pro-Stim Liver Air Ball Pop Ups are perfectly matched to the Pro-Stim Liver Boilies and offer an excellent bait due to their high buoyancy and durability. These pop-ups are particularly resistant and can therefore withstand the unwanted attention of bycatch fish.

The properties of the Pro-Stim Liver Air Ball pop-ups are impressive. They are extremely buoyant and durable, making them a reliable part of any fishing strategy. Their strong aroma of spicy garlic sausages with a rich liver undertone effectively attracts fish. They are also enriched with intense, water-soluble attractors to ensure maximum scent dispersal. These pop ups are easy to trim to achieve the desired buoyancy.

Properties:

- Extremely buoyant
- Spicy aroma
- Intense attractors
- Customizable buoyancy
- Color-coordinated with the Pro-Stim Liver Boilies
- Same base mix as the Pro-Stim Liver Boilies

Content per tin:

- 10mm: 80 baits
- 15mm: 50 baits
- 18mm: 35 baits
- 24mm: 15 baits

Application tip:
Use the ultra buoyant properties of the pop-ups to your advantage by cutting them into different shapes to create an extra edge in the water. In addition to the round shape, try other shapes and dip them in Pro-Stim Liver Bait Booster or Hot Chorizo Compound for an added edge.

Customer advice:
Storage: Store in a cool, dry place away from direct sunlight.
Note: Soaking and coating the pop-ups in liquids may reduce their buoyancy.

Important notice:
This product is intended solely as bait and must not be fed to fish.
Properties:
