1 Stk. in stock

Product information

Finally there is a wader range that takes into account that one size and fit does not suit all carp anglers. The XL Camo Waders offer an evenly enlarged chest dimension across all boot sizes, making them much more comfortable for larger anglers. They also allow multiple layers of clothing to be worn in cold or demanding conditions without becoming uncomfortable.

Features:

- Adapted sizes for larger anglers
- Extended chest dimension
- Ideal for multiple layers of clothing
