Snag Dreams Borovik - The movie

Fishing in the east of Croatia in a flooded valley. A natural jewel that is second to none.
This lake is surrounded by breathtaking fauna and flora and the challenges of fishing are impressively shown in this movie.
It was a unique adventure full of emotions at Jezero Borovik.
Lots of dense weed, trees and structures in the water made fishing a real challenge.

This, but also friendship and fun were not neglected during the trip.

This production is a mixture of many fishing scenes, interviews with locals and all the information about this great body of water.
One thing is a fact. This and all other "we are.fish productions" will be everything but mainstream.

Come with us on a trip to Croatia with Markus Rosenberger and Thomas Hirschbauer. Accompanied with the camera by Alex Preiss, Chris Masser and Max Groer.
We were particularly pleased that Felix Pinedo (Freestyle Fishing) was also on the trip and caught some great fish.

This is a new type of project where you can get all the information you need about fishing, the water and the region. In addition, the problems and solutions of Thomas, Felix and Markus on this difficult water are presented.

Have fun watching! One thing is for sure, you will feel an irrepressible desire for the next session. :-)

Die with memories, not dreams. Tight lines!
