More than 10 PCE in stock

The "WATERCRAFT Big Boost Liquid" is a booster liquid in practical 0.5 liter bottles that gives your bait, groundbait, particles, etc. maximum attractiveness. You can use it to dip or soak boilies, but also to enhance stick mixes and PVA bags. In addition, all liquids are PVA-friendly, unstretched and naturally of the highest quality.

Recommended use:
Dosage for boilies: up to 100 ml/kg
For groundbait and in stick mixes: up to 120 ml/kg

Our different varieties in detail:

Robin Red: A tried and tested classic! This liquid gives your feed a spicy kick and contains the tried-and-tested Robin Red flavoring that carp love! It is also perfect for making boilies.

Liquid Chicken Liver: This liquid is a liquid extract of chicken liver and an excellent attractant for carp. It contains vitamin

Product information

B12 and plenty of free amino acids. The intense liver flavor makes it particularly attractive, especially in fishmeal recipes.

Green Lipped Mussel: Our Green Lipped Mussel (GLM) extract is an effective, natural attractant that carp love! Extracted from the New Zealand Green Lipped Mussel, a marine superfood, this extract provides a rich source of omega-3 fatty acids, amino acids and minerals that are irresistible to carp. With its distinctive fishy aroma and taste, our GLM extract will make your bait stand out from the crowd and increase its attractiveness.

Bloodworm (red midge larva): The red midge larva is a staple food source for carp in many waters. This liquid utilizes the attraction of this natural food source and is particularly effective in muddy waters.

Big Fish: This high-quality liquid fish protein immediately attracts carp. It contains water-soluble amino acids and is extremely attractive. It can be used for soaking boilies, pellets, particles and for making stick or method mixes.

CSL: Obtained from the fermentation process of corn, this rich, nutrient-packed syrup has long since ceased to be an insider tip. And rightly so! With its uniquely sweet aroma and an abundance of amino acids, vitamins and minerals, our CSL makes bait irresistible to carp.

The use of liquids can significantly increase the catch yield. It is best to mix the liquid into the feed a few hours before fishing. They are PVA-friendly and can also be used with PVA mesh and bags.
