Product information

Length in feet (ft):	13 ft
Test curve (lb):	3.75 lb

The Orient Rods Iva 13' 3.7lbs rod is based on the blank of the Iva 3.5lb series, but is characterized by a slightly increased stiffness for a casting weight of up to 3.7lbs. This rod features an exclusive Japanese Toray high performance graphite with a quad-crossed carbon finish that is not only complex but also aesthetically pleasing. This finish is technologically advanced and elegant, and it is unlikely that any other rod is fully coated with it as it is truly exclusive!

Features:

- TOP DRIVE rod concept according to the classification of Orient Rods
- The rod blank features a patented fir tree design (registered in the WIPO Global Design Database DM/090 372)
- 5 guide rings are used (patented 5G system)
- FUJI K-series anti-overcut guide rings with SIC insert. 30 mm input ring
- Blank material: Toray Japan 55-66 msi (40T + 46T)
- Reel seat: ORIENT - FUJI with special engraving on the carbon bushing
- Handle covered with a carbon finish
- Butt cap: Titanium with carbon insert
- Weight: 362 g
- Casting weight range: up to 130 g
- Casting distance: up to 200+ meters
- The Orient Rods Iva 13' 3.7lbs rod combines advanced material technology with exclusive design to provide an unparalleled fishing experience. Whether for long casts or precise techniques, this rod is designed for discerning anglers who value quality, performance and uniqueness
