1 PCE in stock

Product information

Length in feet (ft):	13 ft
Test curve (lb):	4.00 lb and more

The Orient Rods Chameleon SM (Spod/Marker) 13' 5.0lb rod was developed specifically for the Austrian and German markets with the support of our partner in Austria. This rod is designed in our classification as a "front drive" rod to enable anglers to work as comfortably and efficiently as possible over long periods of time.

With long-term use in a variety of conditions, this rod has proven to be an excellent long distance marker with high sensitivity and a lightweight spod for medium and small lure rockets/spombs; it can also be used as a working rod for long casts. The result is a universal rod for long casts with a load of up to 150 grams. For an extra touch of elegance, we have added a Kevlar ferrule and an exclusive butt cap with signed engravings.

Features:

- Fir tree blank design (WIPO patented)
- "FRONT DRIVE" rod concept according to the classification of Orient Rods
- Blank material from Toray Japan 55-66 msi (40T+46T)
- Slit Carbon Toray reinforcement finish carbon coating has been applied to add extra stiffness and strength
- K-series guide rings
- Fuji TVSTJK 17 reel seat with Kevlar insert
- Weight of the rod: 397 grams
- Casting distance: 200+ meters

The Chameleon SM (Spod/Marker) rod is ideal for anglers looking for a versatile rod for accurate and long casts in a variety of conditions without sacrificing comfort and elegance.
