Product information

The Orient Rods Chameleon Ultimate Feeder 14ft rod is an almost classic feeder rod with a fir tree blank design and extended functionality (Ultimate) for long distance casting. By increasing the diameter of the first guide and positioning it as far forward as possible, as well as equipping the other segments with single foot guides and reducing the number of guides on the quivertips, it has become possible to use carp reels with high-capacity spools with minimal risk of overlapping. This rod stands out from the competition as it allows you to achieve maximum acceleration and casting distances with ease. Included in the set are four quivertips of 2, 3, 4 and 6 ounces, all with size 5 guides. In addition, you can purchase a reinforced quivertip to reach even greater distances, adding an extra 10% to your casting distance. The handle insert and reel seat bushing are made of Kevlar: This is a highlight in the design of our feeder rod, emphasizing that this model belongs to the Chameleon series.

Features:

- The rod handle is made from cork produced in Portugal
- Fir tree blank design (WIPO patented)
- Blank material from Toray Japan 55-66 msi (40T+46T)
- Orient Rods butt cup with brand engraving on titanium surface
- K-series guide rings (sizes: 30,20,16,12,12,10,10)
- Fuji DPSD17CC reel seat with Kevlar bushing
- The rod is supplied in a dense cover made from Oxford 900 fabric
- Net weight of the rod blank is 173 grams
- Weight of the rod is 310 grams
- Casting distance with an 80 gram flat feeder and 0.26 mono line is 160+ meters

The Chameleon Ultimate Feeder 14ft rod is ideal for anglers looking for a high quality, versatile rod for long range feeder fishing, with a design that emphasizes both functionality and style.
