2 Stk. in stock

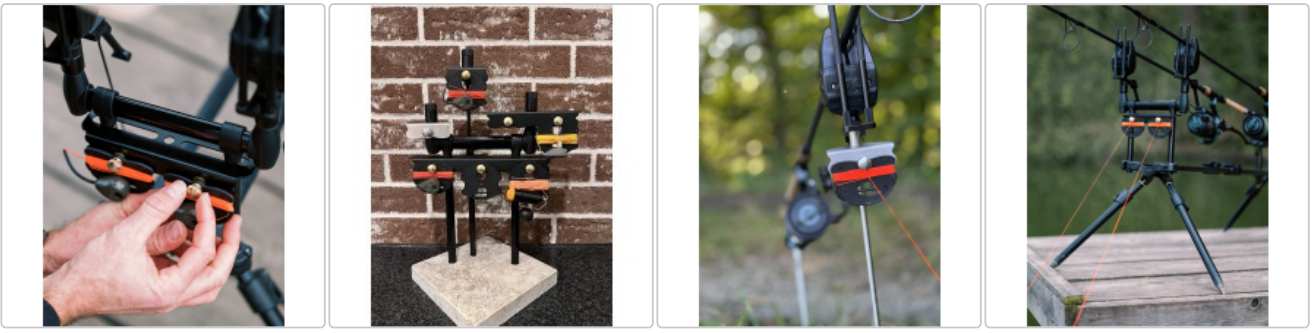

Product information

The backlead hold systems offer innovative solutions for anglers to mount their backleads with a winding board in a simple and efficient way. These systems are available in three variants - single-hold, 2-hold and 3-hold - and offer flexibility for different angling needs and setup preferences.

Single-hold system

- For a single backlead with winding board
- Mounted between the bite indicator/rod rest and bankstick or buzzer bar
- Simple attachment thanks to 10mm drill-hole
- Includes washers to protect the coating
- Can also be used as a winding board itself

2-piece hold system

- For two backleads with winding board
- Mounted between rear buzzer bar and buzzer bar sticks
- Suitable for rod pods with a thread spacing of the buzzer bar sticks of up to 160 mm
- Enables quick and easy attachment

3-piece hold system

- For three backleads with winding board
- Similar mounting as the 2-hold system, but for up to three backleads
- Can be mounted on rod pods with a thread spacing of the buzzer bar sticks of up to 245mm
- Provides additional flexibility and capacity for anglers

Features:

Product information

- All systems are suitable for backleads with a winding board with a prefabricated opening of seven millimeters
- Installation is quick and easy thanks to the prefabricated openings (mounting slots) and the 10mm drill hole
- The washers supplied protect the coating of the system
- The systems enable efficient organization and handling of backleads at the fishing spot
- These backlead hold systems improve handling and efficiency on the water by providing a neat and secure attachment point for backleads
