from 3,84 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Fri 06. Nov - Mon 09. Nov 2026**

2 PCE in stock

The Multi Lead Clip is a universal lead system that can either be set up to drop the lead like a conventional lead clip or fished "running" to hook the extremely cautious carp.

Product information

DF and the Korda guys who fish Gigantica every year have been using this lead clip "running" for many years and the system has proven to be one of the best set-ups to catch the extremely heavily fished carp on Gigantica Main Lake.
If the lead clip is fished free-running, the carp cannot use the weight of the lead to get rid of the hook.

If you want to get rid of the lead, for example if it gets caught somewhere in the water, simply use the pins supplied to fix the swivel or Kwik Link in the lead clip - this allows the lead to be dropped.
Compatible with all Tail Rubbers in the Korda range, but make sure the Tail Rubber is wet before you put it on and never push the Tail Rubber fully onto the Lead Clip for the safety of the fish.

To fish the Lead Clip "running", do not insert the Swivel or Kwik Link into the Lead Clip to allow the lead to slide up the main line or leader.

Available in the colors Weed/Silt and Gravel/Clay.

Features:

- Multi-purpose lead clip
- Can be fished in the style of a running lead
- Supplied with safety pins
- Available in two colors
