The Connex Quick-Change Feeder swivels are available in four practical sizes and offer you the opportunity to change leaders quickly and easily, whether you are fishing with a feeder or a pellet waggler. These high-quality swivels effectively prevent your leader from twisting or tangling. By selecting the best materials and precise workmanship, we guarantee that our swivels are both durable and powerful.

Features:

- Available in sizes 8, 10, 12 and 14
 - Equipped with a round eye and a soft rubber cap that protects the quick-release link
 - Significantly reduce line twist and the risk of line tangles
 - Offer maximum strength and durability
 - Made from an advanced combination of copper and stainless steel materials
 - Consistent and precise manufacturing quality
 - Surface is smooth, black nickel plated and resistant to wear and tear
 - Packaged in more environmentally friendly packaging with less plastic
-

Product information

These swivels are the ideal choice for anglers who value efficiency, reliability and environmental awareness.
