Waldschacher dough – one of the most popular and effective mixes ever and **THE insider tip for match anglers** .
Legendary among many anglers for its effectiveness, Waldschacher is ideal for use as **groundbait or match dough** .
It is also great in a feeder basket or for coating a method lead. It also works perfectly in a PVA bag. The appeal of this secret mixture is incredible, without exaggeration. Especially in heavily fished waters, Waldschacher all-round feed can make all

Product information

the difference.

We also like to use it as groundbait when boilie fishing – as a feed ball or directly in PVA, it creates an irresistible scent cloud. **Thanks to targeted bulk purchases, we always have the best batches of the year in stock!**

Our tip for the optimal preparation of Waldschacher Allround carp feed: Mix 5 parts feed with 3 parts water, stir briefly, and then let the mixture rest for about 20 minutes. This will give you the ultimate match dough that will captivate

the carp. - Special nutrients, active ingredients, and

attractants - Different grain

sizes - The right mixture of floating, suspended, and sinking

components - Easy and quick preparation - just moisten with water or soak to create a loose or firm bait, depending on your needs.
