from 7,69 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

More than 10 PCE in stock

Diameter:	15 to 16 mm
Design/type:	Wafter

The Mainline Cell Fluoro Wafters in 15mm size are specially designed, eye-catching hookbaits that provide a "critically balanced" lure presentation. The weight of the hook offsets the slow sinking buoyancy of the bait, making them particularly easy to handle. These wafters are ideal for rigs such as the Spinner Rig and the German Rig. They are ideal for fishing with PVA bags or over a feeder with other baits from the Dedicated range.

Available in the variants:

- **Flavors:** Cell, Essential Cell, Link
- **Groß:** 15mm
- **Colors:** Yellow, Pink, White

Product information

The Mainline Cell Fluoro Wafters are the perfect hookbaits for anglers who want to achieve an effective and eye-catching presentation of their bait.
