## Product information

The Quappie is an innovative rubber bait developed by Sebastian Hänel. This lure is specially designed to arouse the interest of target fish with its unique movements and structure.

The Quappie is ideal for jigging, but can also be used successfully with other techniques such as trolling or casting. Especially in heavily fished areas, the burbot makes all the difference. With the 12 cm Quappie, you have a versatile and effective lure at hand that impresses with its natural movements and targeted design. Whether for zander, perch or pike - the Quappie brings fish to the hook.

### Features:

- High-frequency fluttering pectoral fins
  - Low-action wedgetail
  - Easy to suck in
  - Eye-catching durable eye
  - Soft, yet robust rubber compound
  - No toxic plasticizers: free from BPA and phthalates,
  - Lure length: 12cm, ideal for fishing for zander, but also perch and pike
  - Recommended jig head: size #3/0 for optimum presentation and hook setting
-
