incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

2 PCE in stock

Product information

Model/Type: Attachment/accessories

In search of a functional and stylish setup, Danny Fairbrass came up with the idea of the Singlez. A system that combines the look of a set-up with individual banksticks with stability and a perfect look. Its design provides an extremely stable structure that prevents the usual twisting of the buzzer bars. Initially just a prototype, it attracted so much attention that it is now available as standard thanks to the cooperation with the renowned English stainless steel forge JAG. With its know-how, JAG guarantees high precision and the best possible quality. The Singlez range includes various banksticks, buzzer bars and other accessories.

An extension is also available for the Singlez spike, perfect for soft floors, and an optional stabilizer is also available for greater stability.

Singlez - a look that will be the envy of many!
