This revolutionary new Illusion fluorocarbon line uses our Trans Khaki technology, making it even more camouflaged than ever before! In fact, our diver Rob Hughes has been heavily involved in the development of this line and says it is by far the best fluorocarbon mainline on the market, as unlike others this line is virtually invisible both in mid-water and on the bottom.

- Super soft for perfect casts and a shallow sink to the bottom
- Extremely fast sinking
- Low stretch
- Invisible under water
- Highly abrasion resistant
- Enormously high knot strength
- Supplied on 200m spools
