Castor accessories: Replacement heads

Replacement spool for the SPEEDEX Spod reel.

The Mivardi Speedex Spod - the name says it all. This reel was specially developed for use with SPOD and MARKER rods. With its massive, robust gear system, the large spool diameter and an increased gear ratio of 5.7:1, it enables an impressive line retrieval of 145cm per crank rotation. Stability, strength and constant winding are guaranteed at all times.

Inside the Speedex Spod are 10 ball bearings, which ensure smooth operation. The oversized spool length and super-slow oscillation guarantee precise line lay, even with thin SPOD lines. This helps to significantly increase the casting distance. Another advantage is the low weight of the reel, which makes it ideal for long fishing sessions. With its exceptionally low price, the Speedex Spod is an unbeatable choice on the market.

Features:

- Specially developed for SPOD and MARKER rods
- Robust and solid with a gear ratio of 5.7:1
- Line retrieval: 145cm per crank rotation
- 10 ball bearings for smooth operation
- Oversized spool length and super-slow oscillation for precise line lay
- Light weight
- Wooden knob and 2 line clips
- Line capacity:
    - 0.25 mm / approx. 380 m
    - 0.30 mm / approx. 265 m
    - 0.35 mm / approx. 195 m
