Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

# Product information

The Sonik STORZ™ Luggage System brings a new concept to modular fishing tackle storage. All products in the STORZ™ range are modular and stackable, but also robust and durable. They feature the new RIGIDZ™ internal steel frame that provides stability so that these bags can be stacked on top of each other to create different storage options. The range is divided into two height and three length options. All STORZ™ LOW products have a height of 22 cm, perfect for storage under a lounger. The durable waterproof EVA bases and side carry handles make these bags ideal for stowing under your lounger and as a middle or top layer when stacking the STORZ™ system. The other STORZ™ models have a height of 32cm and are great for general storage options and as base units for stacked storage units. Lang are divided into three options of 20, 40 and 60cm, creating many modular layout options. To finish off the range, there are two tabletops that are compatible with the 40 and 60 cm sizes. These are ideal for transforming your STORZ™ system into a full bivvy table unit if required.

**Features:**

- STORZ™ robust, modular, easily accessible and stackable luggage system
- RIGIDZ™ steel frame allows for a foldable and stackable design
- Durable waterproof molded EVA base
- Oversized No10 zippers with easy to grip zippers
- Full Seiter and top access
- Two side mesh pockets and carry handles
- Removable adjustable padded shoulder strap
- Most models are compatible with our STORZ™ table accessories
- Dimensions: 60x30x22cm
