from 5,99 EUR / Stk.

incl. 20% VAT plus Shipping

Delivery **Fri 06. Nov - Mon 09. Nov 2026**

9 Stk. in stock

By applying the rear valve, you get an enlarged opening at the end of the carbon fiber tube, which allows you to increase the speed of the Boilies by increasing the air pressure during the cast.

Product information

Features:

- unique patented valve design
- made from block copolymer
- faster and more comfortable loading of Boilies
- the hole at the end of the carbon fiber tube allows higher air pressure to increase the speed of the Boilie and reach greater distances
- available for 23 and 27mm carbon fiber tubes
