Stick mixes are ideal for making your feeding area and the lure effect on your carp rig more attractive. Together with the use of PVA material, there are countless application possibilities to outwit even more carp.

We offer selected stick mixes here, which we mix ourselves in the perfect combination. Here you will find four different

Product information

mixes, the quality of which we are completely convinced of and which we fish ourselves. All ingredients are highly effective and ensure a very good attracting effect at your fishing spot.

Bite Stickmix Fish:

This fish stick mix consists of a valuable tuna meal and is mixed with our wonderfully intense halibut meal. These two flours form the basis for this high-quality stick mix.

The other ingredients such as gammarus, red bird food and 2mm halibut pellets are ideally balanced. The stick mix is very intense and catchy and goes perfectly with fish and seafood mixes such as "The Secret of the Sea", Bloody Mary, Natural Sea and Fortuna HR17. The liquids of these varieties harmonize perfectly with the mix and further increase the attractiveness.

Using PVA mesh or bag, the food is offered directly on the hookbait and attracts the fish directly to your rig.

Bite stick mix Birdy Nuts:

This bird food/nut stick mix consists of high-quality yellow bird food and roasted peanut meal. These two flours form the basis for this high-quality stick mix and the carp love it.

The other ingredients butter bisquit and chocolate bisquit give the whole thing the right kick. The stick mix is nutty-sweet and extremely catchy. It goes perfectly with birdy and cereal boilies, such as "Banana Joe", "Royal Corn", Sweet Girl" and "Caribbean Dream". The liquids of these varieties harmonize perfectly with the mix and further increase the attractiveness.

Using a PVA mesh or bag, the food is offered directly on the hookbait and attracts the fish directly to your rig.

Bite Stickmix Robin Spice:

This meaty, fishy spice mix consists of valuable Robin Spice and is mixed with our wonderfully intense halibut meal. These two flours form the basis for this high-quality stick mix.

Great and above all catchy ingredients such as red paprika, red birdfood, curcuma and cheyenne pepper are used here.

The stick mix is delicately spicy and extremely catchy and goes perfectly with spice and seafood mixes such as "The Secret of the Sea", Loki SP and Natural Sea. The liquids of these varieties harmonize perfectly with the mix and further increase its attractiveness.

Using a PVA mesh or bag, the food is offered directly on the hookbait and attracts the fish directly to your rig.

Bite Stickmix Hemp:

This sophisticated hemp mix consists of valuable animal amino flours and plant-based ingredients. Flours such as our intensely meaty halibut flour and birdfood flours form the basis for this high-quality stick mix.

Other effective ingredients such as slightly fatty pumpkin seed flour, sweet paprika and roasted hemp flour are used here.

The stick mix is intense, catchy and goes well with many Boilies flavors. It is a good idea to use this stick mix if you have fed particles and are fishing with corn, tigernuts and the like, for example. Liquids such as "Big Boost CSL" or "Banana Joe" harmonize perfectly with the mix and make it even more attractive.

Using PVA mesh or a bag, the food is offered directly on the hookbait and attracts the fish directly to your rig.
