from 1,39 EUR / Stk.

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

More than 10 Stk. in stock

The Nash Flat Pear Swivel Lead is a traditional lead with a proven design that improves the hooking effect compared to slimmer lead shapes. The wider shape allows it to grip the bottom more effectively, resulting in improved stability and bite detection. In addition, a depression is integrated at the tip, which absorbs sediment and thus enables better camouflage in the water.

Features:

- Improved hooking effect design compared to slimmer lead shapes
- Effective gripping on the water bottom
- Indentation to pick up sediment for better camouflage
- Traditional swivel design for versatile use
