incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

Model/Type: Attachment/accessories

Product information

As an extension of the successful Singlez system, we have now developed the brand new BLACK SINGLEZ in collaboration with JAG Products. The Black Singlez system has the same features and specifications as the original Singlez system, but is lighter and of course in black. A real gem and must-have for every tackle tart!

Many anglers are looking for a functional and stylish set-up. Korda boss Danny Fairbrass was no different. A few years ago he designed the Singlez, a system that combines the look of a set-up with individual banksticks with stability and perfect looks. Its design provides an extremely stable structure that prevents the usual twisting of the buzzer bars. Initially just a prototype, it attracted so much attention that it is now available as standard thanks to the cooperation with the renowned English stainless steel forge JAG. With its know-how, JAG guarantees high precision and the best possible quality. The Singlez range includes various banksticks, buzzer bars and other accessories.

An extension is also available for the Singlez spike, perfect for soft floors.
An optional stabilizer is also available for greater stability.

Singlez - a look that will be the envy of many!
