Delivery **Thu 05. Nov - Fri 06. Nov 2026**

More than 10 Stk. in stock

Product information

With this ingenious tool, you can quickly and easily **sharpen** a **dull hook!** No need for all those different files, holders, magnifying glasses, and so on...

We've all been there: it's
nighttime, it's raining, and after catching another fish, your hook is dull and you'd have to rebind it...
Simply twist the hook tip into the Hook Sharpener with gentle pressure and light twisting motions—and you're done! Your hook is **sharper than ever and ready to use again right away!**

We spent months testing various mixtures of the stone—giving feedback to the manufacturer and starting over—until we finally **found** the **perfect mixture** for us. We deliberately chose not to go with a round version, as this allows for normal filing of the tip as well. The Sharpener can therefore also be used like a file to give the whole thing a fine finish or to straighten slightly bent hook tips. In our opinion, this is **the best hook sharpener** currently available. □□

Suitable for all hooks with **straight points** —carp hooks, treble hooks, jig hooks, etc.

An ingenious tool that no tackle box should be without—you'll be thrilled!
