Product information

The RidgeMonkey APEarel ThermaPro Waterproof Shell Coat is a reliable and lightweight outer layer that will keep you dry and comfortable in the rain. This 100% waterproof jacket features seam-sealed, articulated panels for optimal protection from the wet, yet is lightweight and compact for easy storage when needed.

The jacket has a full-length, waterproof front zipper with an integrated storm flap that provides additional protection against wind and cold. The high collar and adjustable shell-style hood form a waterproof barrier around the head, while the extended drop-back provides additional protection. The sleeves are fitted with Velcro cuffs that effectively channel water away from the arms. Three zippered pockets - one on the chest and two on the Seiter - offer space for important items.

With its minimalist design and subtle Ridgemonkey APEarel branding, the Shell Coat combines functionality with style and is ideal for anglers and outdoor enthusiasts.

Features:

- 100% polyester in characteristic green
- Waterproof, seam-sealed panels for maximum protection
- Lightweight, compact and easy to stow away
- Full-length waterproof front zipper with storm flap
- High collar and adjustable shell hood with elastic drawstrings
- Extended back section ("dropback") for additional protection
- Sleeves with Velcro cuffs for water drainage
- Zipped chest pocket and two zipped side pockets
- Articulated panel construction for freedom of movement
- Discreet RidgeMonkey APEarel branding
