Product information

The RidgeMonkey APEarel ThermaPro Waterproof Shell Trousers Green are the ideal outer layer for wet weather. These 100% waterproof pants reliably protect you from the rain and keep you warm, dry and comfortable - even in sudden showers. The lightweight, fully lined material can be folded up compactly so that you have the trousers quickly to hand when you need them.

Thanks to the waterproof knee-high side zippers, you can easily pull the trousers on and off over shoes or boots, making them ideal as emergency overtrousers. The elasticated waistband with adjustable buckle ensures a comfortable fit, while the Velcro ankle cuffs can be individually adjusted to fit your shoes. Two zipped side pockets offer space for important items that you want to have to hand quickly.

With their minimalist design and subtle Ridgemonkey APEarel branding, these trousers combine functionality and style.

Features:

- 100 % polyester in characteristic green
- Waterproof, seam-sealed panels for maximum protection
- Lightweight, compact and easy to stow away
- Knee-high zippers with Velcro fastening for easy donning over shoes
- Elastic waistband with buckle closure for a secure fit
- Two zippered pockets on the Seiter
- Articulated panel construction for freedom of movement
- Discreet RidgeMonkey APEarel branding
