2 PCE in stock

Product information

The Ridgemonkey ProCare Retainer Sling combines functionality and safety, serving as both a weigh sling and a short-term retainer for your catch. It allows you to safely weigh and retain the fish while you prepare your camera or let the fish recover before release.

The sling offers maximum security with its full-length YKK zippers, foam floats and an attachment cord to prevent the fish from escaping. An integrated safety clip additionally secures the zippers. The reflective hi-viz bands make it easier to find in the dark and help to align the fish correctly to ensure a gentle release.

The soft mesh fabric ensures fast water drainage and precise weighing. The included Stink Bag Travel Sleeve prevents unpleasant odors during transport and makes the ProCare Retainer Sling a practical choice for anglers who want to combine comfort and animal welfare.

Features:

- Full-length YKK zippers with safety clip for secure closure
- Robust cradle straps with large, strong loops
- Carrying handles at both ends for easy lifting and transportation
- Extended front zipper for easy release of the fish
- Reinforced end caps for extra stability
- Soft, permeable mesh for quick water drainage
- Hi-Viz reflective bands for good visibility in the dark
- Soft inner cover to protect the zipper
- Foam floats for buoyancy and stability
- Integrated storage bag for the fastening cord
- Supplied with fastening cord, 3/8 BSF bankstick adapter and Stink Bag Travel Sleeve
