Product information

Model/Type: Landing nets

Orient Rods Snatch Landing Net Handle - 2,0m

The two-piece landing net handle is made of high-modulus Toray carbon with PLANE 3/3 weave. The connecting elements are made of 6061 aluminum and ensure high stability. The total length is 2.0m when both parts are connected. Unassembled, the pole is particularly practical for use from a boat. It is supplied in a high-quality bag with two compartments.

Features:

- 2-part, made of high-modulus Toray carbon
- Total length 2.0m
- 6061 aluminum connections for high stability
- Unassembled, ideal for use from a boat
- Supplied in a high-quality bag with two compartments

Orient Rods Snatch Landing Net Handle - 2.8m

The two-piece landing net handle is made of high-modulus Toray carbon with PLANE 3/3 weave and has a total length of 2.8m. The buoyancy effect makes it easier to handle, especially when landing nets alone.

It consists of two segments: a 1.8m long main section and a 1.0m extension that can be connected with a thread. If the extension is not required, the aluminum plug supplied can be used to close the main section.

The connecting elements are made of high-strength 6061 aluminum for maximum stability. The 1.8m section can also be used separately from the boat.
The landing net pole is supplied in a high-quality protective bag.

Features:

- 2-piece, made from high-modulus Toray carbon
- Total length 2.8m
- Consists of 1.8m main section + 1.0m extension
- Positive buoyancy makes handling easier
- 6061 aluminum connections for high stability
- Can also be used as 1.8m version (with aluminum plug)
- Extension ideal for use from a boat
- Supplied in a high-quality protective bag
