Product information

Unique curved and angled shape for improved anti-eject properties. The extended 35° angled hook shank ensures faster turning and a more secure hold. Designed for Slip D, Blowback, Fluoro D and Ronnie Claw rigs.

Features:

- 35° angled, extended shank for better hooking effect
- Power Forge Bend technology for increased stability and less deformation
- Perfect for Slip D, Blowback, Fluoro D and Ronnie Claw rigs
- Made from high-strength carbon steel for reliable hook retention
