Product information

The Korda Safety Inline Sleeve Naked has been specially developed to ensure fish-safe rigging with Korda inline leads. In the event of a line breakage, the lead slides effortlessly off the sleeve and cannot get caught in the rig. This version is designed for use without a tube or Leadcore and offers a tight fit on monofilament lines.

Features:

- Suitable for all Korda inline leads
- Optimized for use without Leader or Tubing
- Insert compatible with all Korda size 8 swivels
- Streamlined design for reduced visibility
- Perfect for use with solid bags
- Available in three sizes: Small, Medium and Large
- Also available in tubing and Leadcore versions
