attractants. It consists of various high-quality flours and raw materials that have been carefully selected and combined. The **medium-coarse grain size** ensures perfect distribution in the water.

Each variety of **Bite Mix** is based on the proven recipe, but is refined with specific additives to provide targeted attraction for **carp and whitefish**. Supplemented with a **Watercraft flavor** or **liquid**, it becomes an **ultra-catchy feed variant.**

Properties:

✔ Flaky consistency and good water absorption
✔ Ultra catchy, depending on the variety with special additives
✔ Pure, very intensive groundbait without artificial additives
✔ Medium-coarse grain size for optimum release of attractants
✔ Perfect for carp and whitefish
✔ Can be combined with Watercraft Flavor or Liquid

Watercraft Bite Mix Pure

Intensely fishy & meaty - the pure version contains no additives and has a natural, strong smell. This basic mix is based exclusively on high-quality flours and ensures a **continuous release of the attractants**. The **fluffy dough** has the perfect consistency for use on hooks.

WATERCRAFT Bite Mix Hemp

With roasted hemp - this mixture has been refined with a precisely balanced amount **of roasted hemp**, which creates an **additional attracting effect**. The light roasted aroma enhances the **attractiveness in the water**, while the proven basic formula ensures a **uniform release of the attractants**.

WATERCRAFT Bite Mix Chocolate

Fine chocolate note for extra attraction - the tried-and-tested recipe meets a **pleasant chocolate scent**. The addition of **chocolate cookie** creates a special aroma and taste that is particularly attractive to **white fish and carp**. The consistency remains **flaky and optimally water-absorbent**as usual

WATERCRAFT Bite Mix Robin Spice

With a unique blend of spices - this variant contains a **perfectly balanced blend of high-quality spices** that are particularly appreciated by carp. The **fine spice aromas** ensure a **long-lasting attraction** and a high level of attractiveness in the water. The tried-and-tested **base remains of high quality** and ensures a **constant release of the ingredients.**
