The Trakker NXG Neoprene Rod Bands are a practical solution for keeping individual rod sections securely together during transportation. Made from high-quality neoprene, they offer a reliable hold on the rod blank thanks to the structured back, while the soft material provides good padding between the sections. A special feature is the integrated elastic loop, which

Product information

can also be used to secure the straps around rings or reel holders.

They are suitable both as a stand-alone transport securing device and as a supplement to Trakker's NXG and NXC rod bags.

Features:

- Elastic loop for attachment to rings or reel seat
- Structured back for a secure hold on the blank
- Neoprene padding protects rod parts during transportation
- Compatible with all Trakker rod cases
- Scope of delivery: 1 pair of rod bands
- Dimensions: 20cm x 6cm
- Weight: 0.05kg
- Material: Neoprene
