The Trakker NXG Bedchair Bag has been designed to make the transportation and protection of bedchairs and sleep systems more comfortable and efficient. The revised roll-top design provides excellent weather protection, while the full-length zipper allows quick access to the inner compartment - without any contact with wet or muddy ground.

Product information

The extended design makes the bag more universal and suitable for different bed sizes. Robust carrying handles and a detachable, adjustable shoulder strap ensure flexible handling when loading and unloading. The sturdy construction made of water-repellent, PVC-coated n-dura material provides reliable protection against external influences. The generous interior dimensions offer space for standard, compact or oval bedchairs including sleeping bag.

Features:

- For the protected transportation of bedchairs and sleeping systems
- Roll-top closure for optimum weather protection
