Product information

The Sonik XTRACTOR+ FS 5000 is a compact and robust free spool reel that has been specially developed for carp fishing. With its lightweight graphite body and rotor, it offers high stability combined with low weight. This reel perfectly complements the Xtractor+ rod range and is ideal for both short and long distances.

The reel features a precise micro front drag system as well as an independent free spool rear drag that allows for individual adjustment. The balanced rotor design ensures smooth and even line guidance. Thanks to the 3+1 ball bearings and the 5.1:1 gear ratio, the reel is fast and responsive, ideal for reeling in large fish.

In addition to the main spool, a spare graphite spool is also supplied. Both spools are equipped with line clips to protect the line. The ergonomic handle with soft-touch rubber coating offers a high level of comfort when retrieving. The matt black finish gives the reel a modern, unobtrusive design.

Features:

- Weight: 411g
- Line capacity: 0.30mm-280m / 0.33mm-230m
- Depth of spool: 0.30mm-320m / 0.33mm-265m
- High-strength, lightweight graphite body and rotor
- Line-friendly line clip
- Balanced rotor design
- Ball bearing: 3+1
- Instant anti-reverse
- Ergonomic soft-touch rubber handle
- Matt black finish
- Spare graphite spool included
- Gear ratio: 5.1:1
- Micro front brake
- Independent freewheel rear brake
