The Korda Straight Point Hook has been further developed on the basis of the **popular Wide Gape hook** and combines **extreme sharpness** with **high resilience**. The bite yield has been further optimized thanks to the extended hook shank and an **eye bent inwards by 15 degrees**. However, the key feature is the **extremely sharp, straight tip**, which grips

reliably even with minimal contact pressure.

The wire diameter made of **high-strength Japanese steel** has been increased for **maximum stability**. The hook is forged and has a **PTFE coating**, which ensures both durability and a permanently sharp tip.

Thanks to its universal shape, the Straight Point is **perfect for modern rigs** such as spinner and D-rigs, regardless of whether **pop-ups** or **wafters** are being fished. The intermediate sizes offer additional flexibility for a wide range of applications.
