Product information

Korda Kaizen Mono Brown 1000m

Art.Nr.: 58624 / manufacturer: Korda

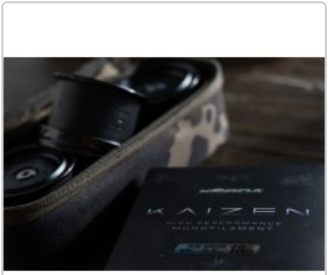

from 20,99 EUR / PCE

incl. 20% VAT plus Shipping

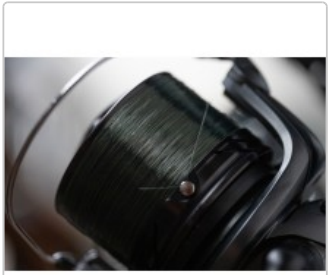

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

3 PCE in stock

Diameter:	0.30-0.35 mm
Line type:	Monofilament

Product information

The Korda Kaizen Mono is a versatile main line that combines long casting distances with excellent abrasion resistance. Made from high-quality Japanese polymers, it offers a very good ratio of diameter to breaking strain and is suitable for short distances as well as extreme distances.

Thanks to the ultra-low stretch, you can feel the lure contact and lead contact even at great distances. The supple structure reduces friction when casting, while the abrasion-resistant surface holds reliably even in the event of obstacles.

Practical length markings every 250m facilitate even spooling.

Properties:

- Monofilament main line with high abrasion resistance
- Ultra-low stretch for precise feedback
- High breaking strain with small diameter (0.35mm/15lb)
- Low air and water resistance when casting
- Markings every 250m on the spool
- Available in five strength levels and two colors
