from 2,00 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

8 PCE in stock

The Skeater Deadbait Hi-Viz Piker Floats are slim, highly buoyant floats for various predator rigs. They are made from robust PET material, which is durable and more environmentally friendly, and combine high load-bearing capacity with an inconspicuous, transparent look in the water.

The floats can be used in a variety of ways - as a slider with a stopper knot, fixed between two stoppers or in waggler style with a link swivel. The bright red tip ensures optimum visibility in all light conditions, whether in a river with a current or in calm still water.

Features:

- Slim design for long and precise casts
- Transparent PET material for low visibility in the water
- High load capacity and reliable bite detection
- Bright red tip for maximum visibility
- Versatile rigging: slider, inline or waggler style
- Sizes: 8g, 12g, 20g, 35g, 40g
