from 2,50 EUR / PCE

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

2 PCE in stock

The Skeater Hi-Viz Drifter Pike Float is a wind-driven float that allows you to search large areas of water effectively. The sail catches the wind and allows the bait to drift naturally - ideal when fishing in open areas or when active predators are being sought.

Product information

Made from highly buoyant, transparent PET material, the Drifter combines an unobtrusive presentation with maximum visibility. It can also be used as a trolling rig when fishing with baitfish behind the boat. An integrated self-locking system prevents the main line from slipping upwards under tension so that the bait always remains at the set depth.

Features:

- Sail for wind drift and large area coverage
- Transparent PET body for inconspicuous presentation and high buoyancy
- Suitable for drifting or trolling baitfish
- Self-locking system reliably holds the lure at the set depth
- Sizes: 11g, 15g, 20g, 25g
