1 PCE in stock

Product information

The Skeater Extracta Deadbait Pwr Rods are compact telescopic rods with a powerful action. Thanks to their short transport length, they are easy to stow without sacrificing power. There are five models in this series, two versions in 9ft and three in 10ft. One of them is specially designed for catfish fishing with a test curve of 4.5lb.

The four deadbait models are made from Skeater's matt X-grade mixed-modulus carbon blank. All variants are equipped with a Japanese shrink tube handle, a DPS 17 reel seat with black and gray camouflage EVA cover and black Seaguide® guides. The 10ft catfish model has an additional shrink tube, a reinforced DBP 20 graphite reel seat and an extended camouflage EVA foregrip to allow more pressure to be applied under heavy loads. Each rod is supplied in a green protective case.

Features:

- Compact telescopic rods with powerful action
- Five models: two in 9ft and three in 10ft, including a special catfish model with 4.5lb test curve
- X-grade mixed-modulus carbon blank with matt finish
- Black Seaguide® guides for high resilience
- Japanese shrink tube handle for a secure grip
- DPS 17 reel seat with black and gray camouflage EVA cover
- 10ft catfish model with reinforced DBP 20 reel seat and extended front handle
- Supplied in a green protective case
