Product information

The Skeater Chaser Pro Deadbait Rods are available in five models and cover the common target fish of perch, zander and pike. Made from reinforced 30T X-grade carbon, the through-action blanks offer secure bait guidance and allow soft baitfish to be cast easily without losing them during the cast. The reinforced handle section ensures reliable hook-ups, even at greater distances.

The rods are equipped with the matt Skeater carbon prepreg, which stands for stability and an unmistakable design. The high-quality AAA cork handle with front grip ensures durability and functionality. Double-supported, braided line-friendly Seaguide® guides with anti-frap tip ring and angled frame are used to reduce line tangles. Each model is supplied in a green protective cover case.

Models:

- **Chaser Pro Deadbait Power Pike 10ft 3lb** - Bank and boat rod with powerful hand section for extra pressure at short range
- **Chaser Pro Deadbait Perch & Zander 11ft 2.5lb** - sensitive model with a fine tip for bites when bottom fishing for perch and zander
- **Chaser Pro Deadbait Stalking 11ft 2.75lb** - all-round rod for stalking or for targeted pike and zander fishing on smaller waters
- **Chaser Pro Dead baitDistance 12ft 3lb** - classic deadbait rod for small to medium waters with pike stocks
- **Chaser Pro Deadbait Distance XS 12ft 3.5lb** - the most powerful version in the series for large waters and large pike
