1 PCE in stock

Product information

The Fox Collection Winter Suit Green is a complete cold weather protection set consisting of a jacket and pants. It was developed for demanding weather conditions and combines strong insulation, high waterproofing, and functional details for reliable protection in winter.

The outer layer features a durable DWPR PVC coating with a water column of 8000 mm and fully taped seams. This keeps the suit dry even in persistent rain. The fleece-lined hand warmer pockets and inner chest pocket provide additional comfort and secure storage for small items.

The hood is removable and multi-adjustable, while elastic elements at the waist, cuffs, and leg ends provide a comfortable fit and wind protection. Reinforced knees increase durability when kneeling or leaning. The front zipper is double-covered to prevent wind and water from entering.

The pants can be easily pulled on over winter boots thanks to adjustable anchor straps. The robust polyester fabric makes the suit ideal for cold, wet, and windy outdoor use.

Features:

- Complete 2-piece winter set (jacket + pants)
- 8000mm water column, DWPR PVC coating
- Fully taped seams for absolute waterproofing
- Fleece-lined zippered pockets + inner pocket
- Detachable, adjustable hood
- Adjustable waist, elastic cuffs, windproof fit
- Reinforced knee areas
- Double wind flap on front zipper
- Adjustable leg cuffs with gaiter function
- Robust outer material made from 100% polyester
