Product information

The Sportex Nova series offers a well-designed range of rods for modern and versatile perch fishing. From sensitive UL models to precise jig rods and all-round and drop shot versions, it covers a wide range of techniques.

At the heart of each rod is a slim blank made from high-quality Toray high-performance carbon, which provides direct feedback, fast action, and sufficient backbone for reliable drilling. The action-specific tuning ensures that bait contact, hooking, and striking can be executed with precision.

Depending on the model, VSS or baitcast reel seats are used, while lightweight KL/KT SIC guides enable clean line management, good casting distances, and smooth operation even with fine braided lines. The Nova series combines sensitive tips, fast recovery, and sufficient backbone power for controlled bass fishing with high performance and an attractive price-performance ratio.

The Sportex Nova RS-3 PT2220 Jig is a powerful perch rod with a length of 2.22 m and a casting weight of 3-22 g. The slim blank made of high-quality Toray high-performance carbon offers direct feedback, fast action, and sufficient backbone for precise hooking and secure drilling. A sensitive tip and precisely tuned action allow you to feel the bait exactly and guide it with pinpoint accuracy.

Features:

- Length: 2.22 m
- Transport length: 114 cm
- Sections: 2
- Casting weight: 3-22 g
- Weight: 108 g
