3 Stk. in stock

Product information

The Nytro Marvelist Commercial Waggler Rods were developed in collaboration with world champion Tommy Pickering and are specially designed for modern pellet waggler fishing on commercial waters. The rods combine sensitive, progressive action with a slim, lightweight blank made from high-quality 40T carbon, offering maximum control, precise casting, and sufficient backbone for confident fighting.

Large Minima-style guides ensure reduced friction, good casting distances, and the use of thicker lines. The DPS screw reel seat guarantees a secure fit for the reel, while the balanced design with cork handle and EVA end cap allows for comfortable, fatigue-free fishing. The progressive action prevents snags even with fine tackle and ensures clean fighting behavior with strong carp and F1.

Features:

- Developed in collaboration with world champion Tommy Pickering
- Blank made from high modulus 40T carbon – lightweight, responsive, and robust
- Progressive action for precise casting and fighting control
- Minima-style guides for reduced friction and better casting distance
- DPS screw reel seat for secure reel retention
- Ergonomic cork handle with EVA end cap
- Perfect balance for fatigue-free fishing
- Optimized for pellet waggler fishing for carp and F1
