# Sonik Kraft Ceramic SB Carp Rod

Art.Nr.: 59566 / manufacturer: Sonik

**from 87,99 EUR** / Stk.

incl. 20% VAT plus Shipping

Delivery **Thu 05. Nov - Fri 06. Nov 2026**

More than 10 Stk. in stock

# Product information

Sonik KRAFT CERAMIC SB rods have been specially developed for boat fishing and, thanks to their special boat action, offer progressive power delivery for precise handling in confined spaces. The blank, made from high-modulus low-resin carbon with a matt armored carbon helix, ensures exceptional strength, sensitivity, and durability.

The BulletPoint tip construction enables fast recovery and high casting accuracy, while the K-Style Seaguide TCG Zirconia rod guides in a 40mm pattern ensure smooth and efficient line gliding. The 16mm Seaguide XUT anti-frap guide with slim zirconia insert minimizes tangles and optimizes performance.

High-quality components such as the CNC-1K Carbon DPS-18 reel seat with matte black hoods, the slim Japanese heat-shrink grip with flared handle, and the matte black, laser-engraved end cap with "S" logo ensure balanced, responsive handling.

**Available models:**

- Kraft Ceramic SB 9ft (3.05m) 3.50lbs
- Kraft Ceramic SB 10ft (3.05m) 3.00lbs
- Kraft Ceramic SB 10ft (3.05m) 3.50lbs
- Kraft Ceramic SB 11ft (3.35m) 3.25lbs

**Features:**

- Designed for fishing from a boat
- High modulus low resin carbon blank with armored carbon helix
- BulletPoint tip construction for fast recovery and precise casting
- K-Style Seaguide TCG Zirconia rod guides 40mm for smooth line handling
- 16mm Seaguide XUT anti-frap guide with zirconia insert
- CNC-1K carbon DPS-18 reel seat with matte black hoods
- Japanese heat-shrink tubing handle with flared grip
- Matte black end cap with "S" laser engraving
