Delivery **Thu 05. Nov - Fri 06. Nov 2026**

1 PCE in stock

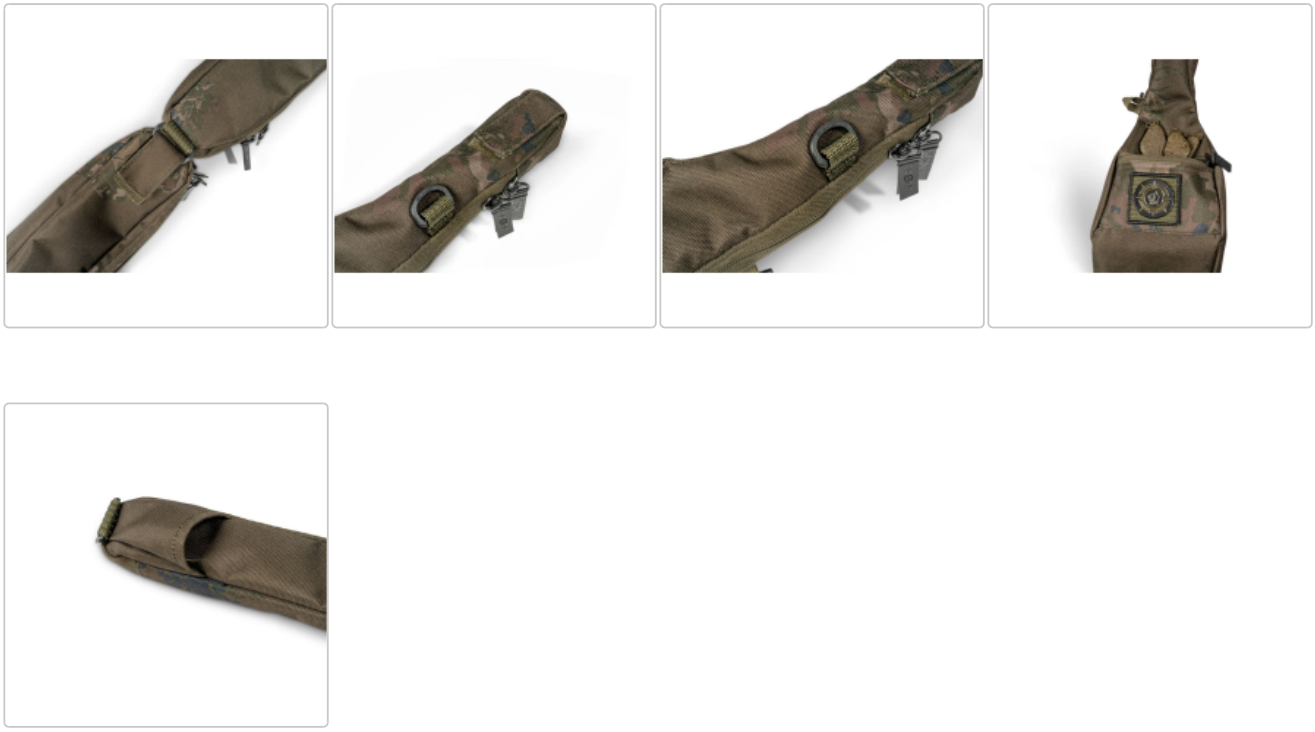

Product information

The Nash Scope OPS Soft Protect 1 Rod Skin is part of the modular transport system for Scope rods and provides reliable protection for individual Scope rods with reels already attached. The 9- and 10-foot models are designed for 50mm rod guides and large Big Pit reels, while the Sawn-Off version accommodates 6-foot rods with a compact Big Pit reel.

Using Velcro patches and fasteners, multiple 1 Rod Skins can be connected together and carried with an optional shoulder strap (not included). They can also be attached to Soft Protect 2- or 3-Rod Skins to increase capacity.

The padded interior protects the rods, while the low-friction zipper along the back allows for easy access to the line. The extended reel compartment accommodates rods with varying reel and handle lengths. On the back, elastic loops and a bottom compartment provide space for swivels, casting rods, or storm poles. A zippered compartment for weights, floating clips to connect the reel compartments, and D-rings at the top and bottom for an optional shoulder strap round out the features. Made from durable 900D heavy-duty material.

Features:

- Modular protection for individual Scope rods
- Padded interior with line-friendly zipper
- Extended reel compartment for rods with different handle and reel lengths
- Multiple 1-Rod Skins can be connected, or combined with 2- and 3-Rod Skins
- Elastic loops and bottom compartment for swivels, casting rods, or storm poles
- Zippered compartment for weights
- D-rings for optional shoulder strap (not included)
- Floating clips for connecting rod compartments
- Durable 900D heavy-duty fabric
